### **Remedies**

If, during the applicable Warranty Period, a buyer discovers any defect in workmanship and materials or suspects that the Product fails to comply with this Limited Warranty and buyer, therefore, seeks to activate the Limited Warranty, then buyer shall, promptly after such discovery (but no later than 10 working days), report the defect to SolarEdge by sending an email to [support@solaredge.com](mailto:support@solaredge.com) with the following information: (i) a short description of the defect, (ii) the Product's serial number, and (iii) a scanned copy of the purchase receipt or warranty certificate of the Product. Upon buyer's notification, SolarEdge shall determine whether the reported defect is eligible for coverage under the Limited Warranty. The Product's serial number must be legible and properly attached to the SolarEdge Product in order to be eligible for Warranty coverage. If SolarEdge determines that the reported defect is not eligible for coverage under the Limited Warranty, SolarEdge will notify the buyer accordingly and will explain the reason why such coverage is not available.

If SolarEdge determines that the reported defect is eligible for coverage under the Limited Warranty, SolarEdge will notify the buyer accordingly, and SolarEdge may, in its sole discretion, take any of the following actions:

- a. repair the product at SolarEdge's facilities or on-site; or
- b. issue a credit note in an amount up to the actual pro-rated value of the Product at the time the buyer notifies SolarEdge of the defect, as determined by SolarEdge, for use toward the purchase of SolarEdge products in accordance with the following formula:  $\text{Credit} = \text{Current market price of same or similar product} \times (120 - \text{Time elapsed from the warranty effective date [in months]}) / 120$ ; or
- c. replace the faulty part of the Product with an equivalent part at the time of the warranty claim. SolarEdge will determine whether the part should be returned to SolarEdge and, if SolarEdge so determined, the Return Merchandise Authorization ("RMA") Procedure (set out below) will be invoked.

SolarEdge may use new, used, or refurbished parts that are at least functionally equivalent to the original, defective part, when making warranty repairs, subject only to minor changes that do not affect the fit, certification, and functionality of the Product or any of its parts, and do not require SolarEdge to conduct any additional integration work. The repaired product or replacement parts of the Product, as applicable, shall continue to be covered under the Limited Warranty for the remainder of the then-current Warranty Period for the Product and will not change the Warranty Period. Where the RMA Procedure is invoked by SolarEdge, SolarEdge will instruct buyer how to package and ship the Product or part(s) of it at buyer's expense to the designated location. SolarEdge will, at its expense and sole discretion, either repair or replace the Product or part(s). SolarEdge will deliver the repaired or replaced Product or part(s) to buyer at buyer's designated location in countries where SolarEdge has an office and/or there is a significant PV market.
